REPORT OF INDEPENDENT ACCOUNTANTS

*The Board of Directors
Clark County Food Bank:*

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Clark County Food Bank, which comprise the statement of financial position as of June 30, 2022, and the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Clark County Food Bank as of June 30, 2022, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Clark County Food Bank and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Clark County Food Bank's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Clark County Food Bank's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Clark County Food Bank's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The schedule of expenditures of federal awards on page 21, as required by Title 2, *U.S. Code of Federal Regulations (CFR)*, Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

Summarized Comparative Information

We have previously audited Clark County Food Bank's 2021 financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated November 19, 2021. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2021 is consistent, in all material respects, with the audited financial statements from which it has been derived.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 18, 2022 on our consideration of Clark County Food Bank's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Clark County Food Bank's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Clark County Food Bank's internal control over financial reporting and compliance.

See accompanying notes to financial statements.

CLARK COUNTY FOOD BANK

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2022

1. Organization

In 1985, the Clark County Food Bank became the primary, county-wide nonprofit food distribution organization as the successor of the Clark County Food Bank Coalition. Clark County Food Bank is affiliated with Feeding America through its connection with Oregon Food Bank, and provides bulk food to 43 partners at approximately 130 distribution sites. These sites include emergency food pantries, supplemental programs, and meal sites. Those programs, in turn, distribute the food to hungry and food-insecure individuals, families, and children of diverse cultural and ethnic backgrounds who are at or below 185 percent of federal poverty guidelines. The mission of the Clark County Food Bank is to alleviate hunger and its root causes.

Bulk food products are sourced from the USDA – The Emergency Food Assistance Program and Trade Mitigation Program, Washington State – Emergency Food Assistance Program, Northwest Harvest, Oregon Food Bank, and Clark County Food Bank’s Fresh Alliance partnership with area supermarkets. This is supplemented by annual Clark County food drives, including Walk & Knock and Letter Carriers, local donations, and the ten-acre Gardens for the Community Program.

Originally operating from an 8,000-square-foot, leased warehouse facility, staffed and managed through a contract with The Salvation Army, today, the Clark County Food Bank owns and operates a 22,000-square-foot food distribution center and two off-site food pantries to meet the ever-growing needs for its services. It is now well-positioned to continue to make a positive difference in the lives of the hungry and food-insecure in Clark County for the long term and to carry out the full intent of its mission.

2. Program Services

During the year ended June 30, 2022, the organization incurred program service expenses in the following major categories:

Food Collection and Distribution – Clark County Food Bank provided emergency food to hungry individuals and families through distribution of bulk food to 43 partners at approximately 130 distribution sites. During the 2022 fiscal year, the organization distributed about 6.4 million pounds of food products to partner agencies, resulting in over 110,000 individuals receiving food at our distributions and partner agency sites.

Community Kitchen – As a food bank, the organization wants to break down the barriers to food and ensure that every person in our community has access to healthy food. Clark County Food Bank operates two food pantry sites, one in the Fruit Valley neighborhood and the other in Walnut Grove. These locations have been serving food and restoring hope in this neighborhood for countless families who struggle with hunger because they do not have adequate access to healthy food.

Community Outreach – There are two main ways we engage with our community. One is for us to simply go when invited to grocery stores, schools, businesses and community events. Another way is by providing educational and volunteer opportunities to those in our community. Events like Elementary School Tours, I-Tech Day, Kids First, and Youth Efforts Against Hunger are especially focused on engaging with the youth in our community.

Nutrition Education – To help alleviate the root cause of hunger and going beyond hand-outs, Clark County Food Bank strives to provide skills, resources, knowledge, and the confidence necessary to prepare, shop and plan for healthy, low-cost and easily prepared meals through our four educational programs.

Farming and Gleaning – Beginning in 2009, Clark County Food Bank increased its commitment to provide fresh, healthy fruits and vegetables by growing them. With the help of volunteers, a ten-acre plot at Heritage Farm produces and local donated ground produces over 100,000 pounds of fresh vegetables for the food bank each year. Gleaning events, involving numerous volunteers, growers, farmers' markets and donors, help connect Clark County food pantries with local growers, utilizing food that otherwise may go to waste.

3. Summary of Significant Accounting Policies

The significant accounting policies followed by Clark County Food Bank are described below to enhance the usefulness of the financial statements to the reader.

Basis of Accounting – The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with generally accepted accounting principles and the principles of fund accounting. Fund accounting is the procedure by which resources for various purposes are classified for accounting purposes in accordance with activities or objectives specified by donors.

Basis of Presentation – Net assets, revenues, gains and losses are presented based on the existence or absence of donor-imposed restrictions. Accordingly, the organization's net assets and changes therein are classified and reported as follows:

- *Net assets without donor restrictions* – Net assets available for use in general operations and not subject to donor-imposed stipulations. From time to time, the Board of Directors may designate a portion of these net assets for particular purposes and objectives.

- *Net assets with donor restrictions* – Net assets subject to donor-imposed stipulations that will be met either by actions of Clark County Food Bank and/or the passage of time. These balances represent the unexpended portion of donor-restricted contributions and investment return to be used for specific programs and activities as directed by the donor.

Expenses are reported as decreases in net assets without donor restrictions. Gains and losses on investments and other assets or liabilities are also reported as increases or decreases in net assets without donor restrictions unless their use is restricted by explicit donor stipulation or by law. Expirations of donor-imposed restrictions on net assets (i.e., the donor-stipulated purpose has been fulfilled and/or the stipulated time period has elapsed) are reported as net assets released from restrictions.

Use of Estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires that management make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. In the opinion of management, such differences, if any, would not be significant.

Cash Equivalents – For purposes of the financial statements, the organization considers all liquid investments having initial maturities of three months or less to be cash equivalents.

Investments – Investments in marketable securities with readily determinable fair values and all investments in debt securities are carried at their fair value in the statement of financial position. Whenever available, quotations from organized securities exchanges are used as the basis for fair value.

Net investment return, which includes both current yield (interest and dividend income) and net change in the fair value of investments, is reported in the statement of activities, net of investment expenses. Interest income is accrued as earned. All security transactions are recorded on a trade date basis.

Inventories – Inventories, which consist primarily of donated and purchased food, are carried at the lower of cost or market value. Cost is determined based on poundage and the nationally-calculated average, per-pound value (\$1.82 per pound for the year ended June 30, 2022). Food donations received from the United States Department of Agriculture (“USDA”) are based on a per case value, as stated by the USDA.

Capital Assets and Depreciation – Capital assets are carried at cost, and initially at fair value when acquired by gift. Capital assets having a unit cost exceeding \$2,000 or more and an estimated useful life of more than one year are capitalized. Depreciation is provided on a straight-line basis over the estimated useful lives of the respective assets, which is generally 3 to 10 years for furniture and equipment; 7 years for vehicles; five years for leasehold improvements, or the term of the lease, if shorter; and 39 years for buildings and related building and land improvements.

The organization periodically reviews the carrying amount of their capital assets whenever events or circumstances provide evidence that suggests that the carrying amount may not be recoverable. As of June 30, 2022, the organization does not believe there is any indication that the carrying values of their capital assets have been impaired during the year ended June 30, 2022.

Revenue Recognition – With regard to revenues from grants and contracts, Clark County Food Bank evaluates whether each transfer of assets is (1) an exchange (reciprocal) transaction in which a resource provider receives commensurate value in return for the assets transferred, or (2) a nonreciprocal transfer (a contribution or a grant), where no value is exchanged.

- *Exchange Transactions* – If the transfer of assets is determined to be an exchange transaction, Clark County Food Bank recognizes revenue when or as it satisfies the required performance obligations and transfers the promised good or service to a customer, and when the customer obtains control of that good or service. Exchange transactions during the year consisted solely from the exchange portion of special event revenue, which is recognized at the time of the event as goods and service are delivered.

- *Contributions and Grants* – If the transfer of assets is determined to be a contribution, Clark County Food Bank evaluates whether the contribution is conditional based upon whether the agreement includes both (1) a barrier that must be overcome to be entitled to the funds, and (2) either a right of return of assets transferred or a right of release of a promisor’s obligation to transfer assets.
- *Governmental Support* – Activities funded by governments are often carried out for the benefit of the general public, rather than to obtain goods or services for the government’s own use or proprietary benefit. Accordingly, if the primary beneficiary of the activity is the general public, rather than the government itself, the transaction is treated as nonreciprocal (i.e., a contribution).

Contributions – Contributions, which include unconditional promises to give (pledges), are recognized as revenues in the period the donor’s commitment is received. Conditional promises to give are not recognized until they become unconditional, that is when the conditions on which they depend are substantially met. Contributions of assets other than cash are recorded at their estimated fair value.

Contributions and grants received with donor stipulations that limit the use of the donated assets are reported as net assets with donor restrictions.

Unconditional promises to give with payments due in future periods, are recorded as increases in net assets with donor restrictions at the estimated present value of future cash flows using credit adjusted discount rates which articulate to the collection period of the respective pledge. Such discount rates are not subsequently revised.

Contributions and grants receivable are reported net of an allowance for estimated uncollectible promises. Promises to give are written off when deemed uncollectible.

When a donor restriction expires, that is, when a time restriction ends or a purpose restriction is fulfilled, net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statement of activities as net assets released from restrictions.

Conditional contributions with donor-imposed restrictions are recorded as net assets without donor restrictions if those conditions are met and restrictions are satisfied in the same reporting period.

Contributions of capital assets without donor stipulations concerning the use of such long-lived assets are reported as revenues of the net assets without donor restrictions class. Contributions of cash or other assets restricted to the acquisition of capital assets with such donor stipulations are reported as net assets with donor restrictions; the restrictions are considered to be released at the time of acquisition of such long-lived assets, in accordance with donors intent.

In-Kind Contributions – A number of unpaid volunteers have made significant contributions of their time to develop and implement Clark County Food Bank’s programs. Under generally accepted accounting principles, significant services received which create or enhance a non-financial asset or require specialized skills that the organization would have purchased if not donated are recognized in the statement of activities.

In-kind contributions of land, buildings, equipment, and other materials are recorded where there is an objective basis upon which to value these contributions and where the contributions are an essential part of the organization’s activities.

During the year ended June 30, 2022, the organization recorded the following in-kind contributions:

Donated food	\$ 9,865,133
Information technology services	36,000
Software	4,296
	9,905,429
Special event supplies	31,137
	\$ 9,936,566

Donated food is used in providing program services and is valued is determined based on poundage and the nationally-calculated average, per-pound value (\$1.82 per pound for the year ended June 30, 2022). Food donations received from the United States Department of Agriculture (“USDA”) are based on a per case value, as stated by the USDA.

Contributed information technology services are used for management and general services. Contributed professional services are valued using current rates for similar services. Contributed software is used for management and general and is valued based on the current undiscounted price of the software. Contributed supplies for use at special fundraising events are valued at the estimated price that would be received for selling similar products in the United States.

Benefits Provided to Donors at Special Events – Clark County Food Bank conducts special fundraising events in which a portion of the gross proceeds paid by the participants represents payment for the direct cost of the benefits received by participants at the event. Unless a verifiable, objective means exists to demonstrate otherwise, the fair value of meals, entertainment, and other benefits provided at special events is measured at the actual cost to the organization.

Advertising Expenses – Advertising and promotional costs are charged to expense as they are incurred.

Measure of Operations – The organization includes in its measure of operations all revenue and expenses that are integral to its programs and supporting activities, net assets released from donor restrictions for operating purposes, and operating investment income. The measure of operations excludes contributions and grants and government grants for capital purchases and net assets released from donor restrictions for capital purposes.

Concentrations of Credit Risk – The organization’s financial instruments consist primarily of cash equivalents, investments, and a beneficial interest in assets held by The Community Foundation for Southwest Washington, which may subject the organization to concentrations of credit risk as, from time to time, for example, cash balances may exceed amounts insured by the Federal Deposit Insurance Corporation (“FDIC”).

All checking and savings accounts, money market deposit accounts, and certificates of deposit are insured by the FDIC for up to \$250,000 for each depositor, for each insured bank, for each account ownership category. At June 30, 2022, the organization held \$4,748,166 in excess of FDIC coverage limits.

The organization’s beneficial interest in assets held by The Community Foundation for Southwest Washington is dependent upon changes in the fair values of the underlying investments and the ability of The Community Foundation for Southwest Washington to honor its commitment.

Certain receivables may also, from time to time, subject the organization to concentrations of credit risk. To minimize its exposure to significant losses from customer or donor insolvencies, the organization’s management evaluates the financial condition of its customers and donors, and monitors concentrations of credit risk arising from similar geographic regions, activities, or economic characteristics. When necessary, receivables are reported net of an allowance for uncollectible accounts.

Income Taxes – The organization is exempt from federal and state income taxes under Section 501(c)(3) of the Internal Revenue Code and comparable state law. Clark County Food Bank derives its public charity status as an organization described in Sections 170(b)(1)(A)(vi) and 509(a)(1) of the Internal Revenue Code.

Subsequent Events – Subsequent events have been evaluated by management through November 18, 2022, which is the date the financial statements were available to be issued.

Summarized Financial Information for 2021 – The accompanying financial information as of and for the year ended June 30, 2021 is presented for comparative purposes only and is not intended to represent a complete financial statement presentation.

Other Significant Accounting Policies – Other significant accounting policies are set forth in the financial statements and the following notes.

4. Recently-Issued Accounting Standards

In February of 2016, the FASB issued ASU No. 2016-02, *Leases* (Topic 842). The guidance in this ASU supersedes the leasing guidance in Topic 840, *Leases*. Under the new guidance, lessees are required to recognize lease assets and lease liabilities on the balance sheet for all leases with terms longer than 12 months. Leases will be classified as either finance or operating, with classification affecting the pattern of expense recognition in the statement of activities. The new standard is effective for fiscal years beginning after December 15, 2021. Clark County Food Bank is evaluating the impact of the pending adoption of the new standard on its financial statements.

5. Contributions and Grants Receivable

Contributions and grants receivable at June 30, 2022 are summarized as follows:

Private grants and contributions ¹	\$ 581,072
Government grants	102,831
	<hr/> 683,903
Less unamortized discount ¹	(17,494)
	<hr/> \$ 666,409

*Unconditional promises
expected to be collected in:*

Less than one year	\$ 354,903
One year to five years	311,506
	<hr/> \$ 666,409

¹ Includes \$532,000 for the Vision Center Capacity Campaign.

Conditional Grants

In addition, at June 30, 2022, Clark County Food Bank had \$501,502 in government grants available for future periods, the recognition of which is conditioned upon the incurrence of allowable costs. These grants have not been included in the accompanying financial statements because the associated conditions had not been satisfied as of June 30, 2022.

6. Investments and Investment Return

At June 30, 2022, investments carried at fair value consisted of the following:

Cash equivalents	\$ 8,999,016
Equities	638,953
Government bonds	264,895
Corporate bonds	112,008
	<hr/> \$ 10,014,872

Investments are held for the following purposes:

Designated by Board for Quasi-endowment (<i>note 11</i>)	\$ 8,012,751
Designated by Board for capacity fund	2,002,121
	<hr/> \$ 10,014,872

Investment return for the year ended June 30, 2022 is summarized as follows:

Interest and dividends	\$ 55,059
Net increase in the fair value of investments	4,737
	<hr/> \$ 59,796

7. Beneficial Interest in Assets Held by The Community Foundation for Southwest Washington

Clark County Food Bank has established a fund at The Community Foundation for Southwest Washington. The organization accounts for its interest in this fund using the equity method of accounting, which approximates the present value of the estimated expected future cash flow that will inure to the organization. The assets in the fund represent Board-designated expendable funds.

Changes in the organization's beneficial interest in this fund for the year ended June 30, 2022 are summarized as follows:

Balance at beginning of year	\$ 23,054
Less decrease in the fair value of the fund	(3,254)
	<hr/> Balance at end of year
	\$ 19,800

Under the terms of its agreement with The Community Foundation for Southwest Washington, the fund is invested at the discretion of the foundation and is held in a mixture of asset classes designed to maximize return while minimizing risk.

8. Inventories

At June 30, 2022, the organization’s inventory consisted of 418,955 pounds of food available for distribution, valued at \$633,828, from the following sources:

Donated by supermarkets and individuals	\$ 342,319
U.S. Department of Agriculture	224,632
Northwest Harvest	29,247
Purchased for distribution	37,630
	<hr/>
	\$ 633,828

9. Property and Equipment

A summary of property and equipment at June 30, 2022 is as follows:

Land	\$ 653,540
Building and improvements	4,961,806
Furniture and equipment	481,526
Vehicles	643,108
Leasehold improvements	69,702
	<hr/>
	6,809,682
Less accumulated depreciation and amortization	(1,981,487)
	<hr/>
	\$ 4,828,195

In February of 2011, the organization received a grant from the Clark County, Washington for \$466,000 to purchase land and build a food distribution center. The grant requires a deed of trust on the property. The terms of the Clark County agreement require that the property must be used as a food bank to serve Clark County for a period of 30 years (through March of 2041).

The organization will be liable for the repayment of the grants upon the sale, transfer, refinancing, or change in use of the property.

In such event, the organization must repay to Clark County a total of \$466,000, plus a proportionate share of the appreciated value of the property. As of June 30, 2022, the organization has complied with all restrictions referred to above, and also has the intention and ability to continue to comply with those restrictions. Accordingly, no associated liability has been recorded in the accompanying financial statements.

10. Line of Credit

At June 30, 2022, the organization maintained a line of credit in the amount of \$500,000, secured by all inventory, accounts, equipment, and general intangibles. The line bears interest at the prime rate (4.75% at June 30, 2022), plus 1.50%, but not less than 4.75%. The line matured in July of 2022. No balance was outstanding at June 30, 2022.

The line was renewed in August of 2022, under the terms noted above. The prime rate at time of renewal was 5.5%. The line matures in November 2022.

11. Board-Designated Quasi-Endowment

At June 30, 2022, net assets without donor restrictions have been designated by the Board of Directors for quasi-endowment to support general operations. The funds are invested in a mix of equities, treasury bonds, corporate bonds and cash equivalents designed to maximize return, while minimizing risk. Board-designated quasi-endowment activities for the year ended June 30, 2022 are summarized as follows:

Quasi-endowment net assets, at beginning of year	\$ -
Transfer of general operating funds to Board-designated quasi-endowment	8,000,000
Net investment return	12,751
	<hr/>
Quasi-endowment net assets, at end of year	\$ 8,012,751

12. Net Assets with Donor Restrictions

The following summarizes Clark County Food Bank’s net assets with donor-imposed restrictions as of June 30, 2022:

Expendable net assets restricted for the following purposes:

Vision Center Capacity Campaign	\$ 1,543,702
Nourishing Neighbors	61,337
Food purchases and distribution	53,717
Community Kitchen	18,300
SNAP Application Assistance Program	14,467
Other purposes	14,682
	1,706,205

Expendable net assets unrestricted as to purpose, but restricted as to time:

Pledges to benefit the organization’s general operations in future periods	37,000
	37,000

Total net assets with donor restrictions	\$ 1,743,205
--	--------------

13. Government Grants

During the year ended June 30, 2022, the organization received grants provided under agreements with the following:

Washington State Department of Agriculture	\$ 258,661
United States Department of Agriculture ¹	239,814
United States Department of the Treasury ¹	233,080
United States Department of Homeland Security ²	90,791
United States Department of Health and Human Services ³	82,000
	\$ 904,346

¹ Passed through Washington State Department of Agriculture.

² Passed through The United Way.

³ Passed through Clark County.

In addition, during the year ended June 30, 2022, the organization received \$1,989,171 in donated food from the United States Department of Agriculture’s Emergency Food Assistance Program, and Trade Mitigation Program, both of which were passed through the Washington State Department of Agriculture.

14. Net Assets Released from Restrictions

During the year ended June 30, 2022, \$407,718 in total donor-imposed net asset restrictions were released by incurring expenses in satisfaction of the restricted purposes or by the occurrence of other events specified by the donors.

15. Expenses

The costs of providing the various programs and activities of the organization have been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

The financial statements report certain categories of expenses that are attributable to one or more program or supporting functions of the organization and, therefore, require allocation on a reasonable basis that is consistently applied. Those expenses include depreciation and amortization, and other facility-related costs, which are allocated on a square footage basis, as well as salaries and wages, benefits, payroll taxes, professional services, office expenses, information technology, insurance, and other expenses, which are allocated based on employee time and effort.

16. Liquidity and Availability of Financial Assets

Financial assets available for general expenditure within one year of the statement of financial position date comprise the following at June 30, 2022:

<i>Total financial assets:</i>	
Cash and cash equivalents	\$ 5,337,360
Contributions and grants receivable	666,409
Investments	10,014,872
Beneficial interest in assets held at The Community Foundation for Southwest Washington	19,800
	16,038,441
<i>Less financial assets not available within the year ending June 30, 2023:</i>	
Financial assets designated by the Board	(10,034,672)
Financial assets restricted for capacity expansion	(1,543,702)
Financial assets collectible in more than one year	(10,000)
	(11,588,374)
	\$ 4,450,067

As part of its liquidity management, Clark County Food Bank has a policy to structure its financial assets to be available as its general expenditures, liabilities, and other obligations become due. The organization also invests cash in excess of daily requirements in certificates of deposit and money market funds. To help manage unanticipated liquidity needs, the organization has a committed line of credit upon which it could draw (see note 10).

In addition, Clark County Food Bank holds Board-designated funds totaling \$10,034,672 (see notes 6 and 7). Although the organization does not intend to spend from its board-designated funds, amounts from the funds could be made available, if necessary.

17. Retirement Plan

Effective July 1, 2017, the organization established a Section 401(k) retirement plan. Eligible employees may elect to make voluntary contributions to the plan on a pre-tax basis, up to the limits allowed by law. All employees who have at least three months of employment and are expected to work at least 1,000 hours a year are eligible to participate in the plan. The organization initially matches each employee’s contributions to the plan, up to 3% of the participating employee’s compensation. After two years of employment, the organization also matches half of the participating employee’s contributions greater than 3%, up to 7%. After four years of employment, the organization additionally matches half of the participating employee’s contributions greater than 7%, up to 11%. Employer contributions vest 25% per year for the first four years. Contributions by the organization to the plan totaled \$54,199 for the year ended June 30, 2022.

18. Operating Lease Commitment

On June 28, 2021 Clark County Food Bank entered into a 10-year lease for a new warehouse and food pantry space. The warehouse and food pantry will be constructed by the landlord. In exchange for reduced rent, Clark County Food Bank will make an initial payment of \$1,000,000. The organization will also make another payment of \$186,283 for planned tenant improvements. Both payments were made on October 17, 2022. The 10-year lease term will begin when construction is completed and a temporary Certificate of Occupancy has been received, at which time annual rent will begin totaling \$71,040 for the first year, with a 2% per annum increase thereafter.

19. Contingencies

Certain amounts received or receivable under the organization's contracts with the State of Washington, and the federal government are subject to audit and adjustment. Any expenditures or claims disallowed as a result of such audits would become a liability of the organization's unrestricted fund. In the opinion of management, any adjustments that might result from such audits would not be material to the organization's overall financial statements.

20. Fair Value Measurements

Included in the accompanying financial statements are certain financial instruments carried at fair value. The fair value of an asset is the amount at which that asset could be bought or sold in a current transaction between willing parties, that is, other than in a forced or liquidation sale; similarly, the fair value of a liability is the amount at which the liability could be transferred in a current transaction between willing parties. Fair values are based on quoted market prices when available.

When market prices are not available, fair value is generally estimated using discounted cash flow analyses, incorporating current market inputs for similar financial instruments with comparable terms and credit quality.

All financial assets and liabilities carried at fair value have been classified, for disclosure purposes, based on a hierarchy defined under generally accepted accounting principles. The hierarchy gives the highest ranking to fair values determined using unadjusted quoted prices in active markets for identical assets and liabilities and the lowest ranking to fair values determined using methodologies and models with unobservable inputs, as follows:

- *Level 1* – Values are unadjusted quoted prices for identical assets and liabilities in active markets accessible at the measurement date.

- *Level 2* – Inputs include quoted prices for similar assets or liabilities in active markets, quoted prices from those willing to trade in markets that are not active, or other inputs that are observable or can be corroborated by market data for the term of the instrument.
- *Level 3* – Certain inputs are unobservable (supported by little or no market activity) and significant to the fair value measurement.

At June 30, 2022, the following financial assets are measured at fair value on a recurring basis:

	Level 1	Level 3	Total
Investments (<i>note 6</i>)	\$ 10,014,872	–	10,014,872
Beneficial interest in assets held by The Community Foundation for Southwest Washington ¹	–	19,800	19,800
	\$ 10,014,872	19,800	10,034,672

¹ See note 7 for a summary of the beneficial interest in assets held by The Community Foundation for Southwest Washington and associated activity for the year ended June 30, 2022.

21. Statement of Cash Flow Reconciliation

The following presents a reconciliation of the increase in net assets (as reported on the statement of activities) to net cash provided by operating activities (as reported on the statement of cash flows):

Increase in net assets	\$ 3,865,606
<hr/>	
<i>Adjustments to reconcile increase in net assets to net cash provided by operating activities:</i>	
Depreciation and amortization	257,301
Proceeds from contributions restricted for purchases of capital assets	(735,271)
Net increase in the fair value of investments	(4,737)
Net change in beneficial interest in assets held by The Community Foundation for Southwest Washington	3,254
<i>Net changes in:</i>	
Contributions and grants receivable	(203,777)
Inventories	100,681
Prepaid expenses	26,435
Accounts payable and accrued expenses	10,710
Accrued payroll and related expenses	78,891
Refundable advances	5,000
<hr/>	
Total adjustments	(461,513)
<hr/>	
Net cash provided by operating activities	\$ 3,404,093
<hr/>	

22. Reclassification of 2021 Comparative Totals

Certain 2021 amounts presented herein have been reclassified to conform to the 2022 presentation.

CLARK COUNTY FOOD BANK

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

YEAR ENDED JUNE 30, 2022

1. Basis of Presentation

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal award activity of Clark County Food Bank under programs of the federal government for the year ended June 30, 2022. The information in this Schedule is presented in accordance with the requirements of Title 2, *U.S. Code of Federal Regulations*, Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (the "Uniform Guidance"). Because the Schedule presents only a selected portion of the operations of Clark County Food Bank, it is not intended to and does not present the financial position, changes in net assets, or cash flows of Clark County Food Bank.

For purposes of the Schedule, federal awards include all grants, contracts, and similar agreements entered into directly between Clark County Food Bank and agencies and departments of the Federal Government and all sub-awards to the organization by non-federal organizations pursuant to federal grants, contracts and similar agreements.

2. Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

3. Indirect Cost Rate

Clark County Food Bank elected not to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

REPORT OF INDEPENDENT ACCOUNTANTS ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

*The Board of Directors
Clark County Food Bank:*

We have audited, in accordance with the auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Clark County Food Bank, which comprise the statement of financial position as of June 30, 2022, and the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated November 18, 2022.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Clark County Food Bank's internal control over financial reporting ("internal control") as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Clark County Food Bank's internal control. Accordingly, we do not express an opinion on the effectiveness of Clark County Food Bank's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the organization's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

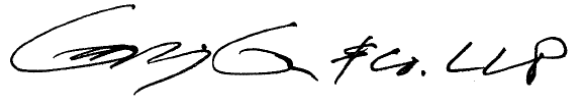

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Clark County Food Bank's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

A handwritten signature in black ink, appearing to read "Cayle A. LLP". The signature is fluid and cursive, with the letters "Cayle" being more prominent and "A. LLP" following in a smaller, less distinct script.

November 18, 2022

REPORTS OF INDEPENDENT ACCOUNTANTS ON COMPLIANCE FOR EACH MAJOR FEDERAL
PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY
THE UNIFORM GUIDANCE

*The Board of Directors
Clark County Food Bank:*

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Clark County Food Bank's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Clark County Food Bank's major federal programs for the year ended June 30, 2022. Clark County Food Bank's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Clark County Food Bank complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2022.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the *Auditor's Responsibilities for the Audit of Compliance* section of our report.

We are required to be independent of Clark County Food Bank and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Clark County Food Bank's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Clark County Food Bank's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Clark County Food Bank's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that

resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Clark County Food Bank's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Clark County Food Bank's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Clark County Food Bank's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Clark County Food Bank's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

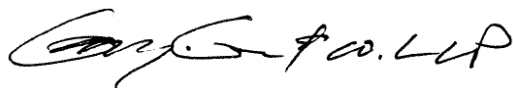

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the *Auditor's Responsibilities for the Audit of Compliance* section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

November 18, 2022

CLARK COUNTY FOOD BANK
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED JUNE 30, 2022

Section 1 – Summary of Auditor’s Results

Financial Statements

1. Type of auditor’s report issued on whether the audited financial statements were prepared in accordance with GAAP – unmodified
2. Significant deficiency(ies) in internal control identified in the audit of the financial statements – none reported
3. Material weakness(es) in internal control identified in the audit of the financial statements – none
4. Noncompliance that is material to the financial statements noted – none

Federal Awards

5. Significant deficiency(ies) in internal control over major federal programs identified in the audit – none reported
6. Material weakness(es) in internal control over major federal programs identified in the audit – none
7. The type of auditor’s report issued on compliance for major federal programs – unmodified
8. Audit findings disclosed that are required to be reported in accordance with 2 CFR 200.516(a) – none

Identification of Major Federal Programs

- U.S. Department of Agriculture, Food Distribution Cluster (Assistance Listing Nos. 10.568 and 10.569)
 - U.S. Department of Treasury, COVID-19 Coronavirus State and Local Fiscal Recovery Funds (Assistance Listing No. 21.027)
9. Dollar threshold used to distinguish between Type A and Type B programs – \$750,000
